PROFESSIONAL SUMMARY

Web Developer with 2+ years of freelance and internship experience building responsive, scalable, and user-focused web applications. Strong foundation in HTML, CSS, JavaScript, and React, with hands-on experience delivering end-to-end web solutions for real clients. Adept at translating business requirements into clean, maintainable frontend implementations.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, React, Tailwind CSS, Bootstrap

Databases: MySQL, Firebase, MongoDB

Tools: Git, GitHub

Concepts: Responsive Design, SEO Basics, UI Optimization

PROFESSIONAL EXPERIENCE

Independent Web Developer   2022 – Present
Freelance

- Designed and developed multiple client-facing websites and web applications using HTML, CSS, JavaScript, and React.
- Delivered complete project lifecycles including requirements gathering, UI development, deployment, hosting, and maintenance.
- Built responsive, SEO-friendly interfaces optimized for performance across devices.
- Integrated Firebase Authentication and Firestore to support dynamic content and user workflows.

MERN Stack Intern   2024
Tecnavis Web Solutions   Malappuram, Kerala

- Developed frontend components and application logic for a queue management system using React and Tailwind CSS.
- Integrated backend services and REST APIs using Firebase.
- Collaborated in an agile environment to deliver functional modules on schedule.

PROJECTS

FlyAjwa Travels and Holidays   2024
Freelance —— flyajwa.com

- Developed a travel and tours web platform enabling users to explore customized travel packages, itineraries, and holiday services through a clean, responsive interface.
- Designed and implemented user-centric UI components optimized for mobile and desktop, improving navigation, content clarity, and overall user engagement.
- Structured the frontend architecture to support scalability and future feature expansion such as online inquiries, package listings, and content management.

AKAF Company   2025
Freelance —— akafcompany.com

- Designed and developed a professional corporate website to represent company services, brand identity, and business offerings with a structured and modern layout.
- Implemented responsive UI components using clean HTML, CSS, and frontend best practices to ensure consistent performance across devices and browsers.
- Optimized site structure and content organization to improve readability, maintainability, and future scalability.

The Valli Girls   2025

Freelance —— thevalligirls.com

- Developed and deployed a live business website for a retail client to showcase products, business information, and contact details through a clean, user-friendly interface.
- Implemented responsive design using HTML, CSS, and Bootstrap to ensure consistent layout and usability across mobile, tablet, and desktop devices.
- Collaborated with the client to translate business requirements into a functional web presence, improving online visibility and customer reach.
